WHAT IT IS

A VR therapy program your patients use at home.

Inside the headset: XRHealth app

The XRHealth VR therapy platform runs guided programs on a headset: calming scenes, movement activities and guided exercises in short sessions.

Who it may help

- Patients with chronic pain
- Patients with anxiety or stress

VR therapy supports, and does not replace, the patient's care plan. The treating clinician decides if it is appropriate.

The patient receives

- VR headset with the XRHealth app
- Controllers and charger

Northcoast

FOR PHYSICIANS, REHAB & THERAPY CENTERS

At-home VR therapy for your patients.

A prescribed VR therapy program your patients use at home. Northcoast handles the equipment.

VR therapy platform by XRHealth

Original Medicare Part B may cover it*
Refer a patient: 330-650-2022

HOW TO REFER

What to send us

Typical items. Northcoast will confirm what each patient needs.

- Patient demographics and insurance information
- Signed prescription / order from the treating clinician
- Recent clinical notes and diagnosis supporting medical need
- Contact info for the patient or caregiver

WHAT HAPPENS NEXT

1. **Referral received**
   Northcoast reviews it and contacts the patient or caregiver.
2. **Eligibility & documents**
   Northcoast verifies coverage and confirms the documents are complete.
3. **Home delivery & setup**
   Scheduled with the patient once everything is in place.
4. **Your office stays informed**
   Northcoast keeps the referring office updated.

A referral starts the process. The device is supplied once the signed prescription and required documents are complete.

WHAT NORTHCOAST DOES

Northcoast delivers the headset to the patient's home, sets it up, and teaches the patient how to use it.

COVERAGE

Original Medicare Part B may cover it*

Original Medicare Part B may cover VR therapy equipment for eligible patients. Secondary insurance may help with the patient's share. Northcoast verifies coverage before delivery.

Is the patient a likely fit?

- Has Original Medicare Part B
- Has a condition the program may help with
- Living at home, or going home soon
- Able to use a headset after teaching

*Coverage depends on the patient's plan, eligibility and documentation, and is not assured. The Part B deductible and 20% coinsurance may apply. A referral starts the process; the device can be supplied only once the signed prescription and supporting documents are complete and coverage is verified. Individual results vary.
